VACCINATION POLICY

As of November 28, 2022, and until further notice, LAFS will implement a modified Vaccination Choice Policy — being “fully vaccinated” or testing weekly will no longer be required for access to campus.

The daily attestation process will remain in place, as will badging into campus and receiving a wristband once cleared.

We will continue to monitor our surrounding COVID-19 conditions, including local and state laws that can affect our policy, and will update you with any changes in advance.

An FAQ providing further details about this policy can be found at: www.lafilm.edu/alerts/faq

Other than as detailed above, this institution does not require any other vaccinations as a prerequisite for enrollment.

Effective 11.18.2022
